experience

Sr. Web Designer, August 2008 - Present

iChange, Inc., Fullerton, CA 92832 714.447.4098

Direct and develop the design implementation of all iChange services. Code semantic markup with effective and light weight CSS, Javascript, and PHP for a clean, standard compliant website. Strengthen the design style of iChange with clear consistency and high quality to produce the best online and mobile applications in the industry.

Sr. Web Designer, June 2008 - August 2008

Bobit Business Media, Torrance, CA 90503 310.533.2400

Evaluated and analyzed over 30 existing websites with a focus on usability, accessibility, semantics, and cross-browser issues for redesign to improve performance. Introduced department-wide policies of web design standards and proper coding syntax for XHTML and CSS. Designed and implemented new websites, micro-sites, e-promos, emails, e-newsletters, and banner ads.

Creative Director, March 2005 - May 2008

New Motion, Inc., Irvine, CA 92606 949.777.3700

Directed all creative ideas and projects for the corporate company and all associated brands. Managed a national team of designers by maintaining a consistent project flow and inspiring their creative thought process. Built websites according to web standards and implemented (x)HTML & CSS using semantic markup. Created online, print, outdoor, and multi-media designs for use across a variety of platforms.

Web Designer, 2002 - Present

Mark Uraine Design - Freelance

Create and maintain websites for a variety of non-profit, corporate, and privately held businesses. Design websites and web interactive applications for web standard compliancy with strong focus on usability, accessibility, and search engine optimization (SEO).
